

REGIONS OF KNOWLEDGE

FP7-229947 - INRES

INsular regions cooperating for maximising the environmental and economic benefits from research in Renewable Energy Sources 1/4/2009 - 30/9/2011

OBJECTIVES

- Analysis of the state of the art, in three island regions in the adoption and development of RES. Identification of technology transfer models.
- Development of an inter-regional network, for 2) cross-regional learning and mentoring.
- Preparation of a Joint Action Plan. 3)

FIRST OUTCOMES

QUANTITATIVE OUTCOMES

- INRES meetings at the Canaries and Samsø (2)
- Cartographic Competence Schemes (3)
- Regional RES-ID Cards (3)
- Organisation of regional event (1)
- Project web site

QUALITATIVE OUTCOMES

Team building and sharing of knowledge across regions

DISSEMINATION

- Spanish REGIONS NCP. Tenerife.
- Financial instruments. Martinica (video)

FIRST INTER-REGIONAL WORKSHOP and STAFF-EXCHANGES

CRETE - 25-27th APRIL 2010

Canary Islands. Kick-off meeting. April 2009

Samsø, 2nd INRES meeting September 2009

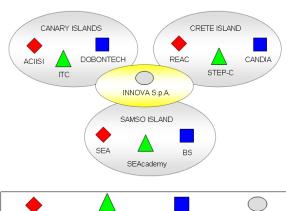

Crete

EXPECTED IMPACT

- Trans-regional policy cooperation and learning.
- Acknowledgment and better exploitation of linkages between regions and increasing the potential of technology transfer dynamics beyond the regional dimension.
- Networking among partner regions and with other European regions that have obtained good results from the implementation of RES technologies and making greater use of such technologies.
